

Subject Matter Expertise: Public Safety Agency and Jail Operations

- Best practices review and assessment
- Independent expert evaluations
- Legal and constitutional compliance
- Public finance, grants, procurement
- Media support and communications

Public Safety Strategies Group (PSSG) provides subject matter expertise and consulting services for public, private, and non-profit entities.

With a wealth of law enforcement, public safety, corrections, justice and government experience, and decades of public service and leadership, PSSG Team members are engaged in groundbreaking initiatives all across the country. PSSG experts combine professionalism and academic rigor with hands-on experience, to partner in national research studies, re-invest their “know-how” as subject matter experts for government agencies, advocate for policy and best practice advancements, and advise small and large businesses in emerging and proven public safety technology enhancements.

PSSG’s award-winning experts are nationally-recognized media contributors and conference speakers on topics related to policing, crime, incident and crisis response, mental-illness among the justice-involved, emerging technologies, information sharing, jail and corrections operations, officer wellness and training, and community engagement.

PSSG’s Principal Consultant Rich Stanek, has unmatched leadership experience (a command level post within a major city police department (MPD); service as a sheriff in a large urban agency (HCSO); cabinet-level oversight of several state agencies (MN DPS, MN BCA, MN State Patrol) and advisory appointments to federal agencies and directors (FBI, DNI, DHS, FirstNet). Sheriff Stanek formed PSSG in 2019, to connect trusted experts with industry innovators and professionals all working to advance the public safety mission.
